

# New Acousta Tile

Restores stained and discolored acoustic tiles

**NEW ACOUSTA TILE** restores stained and discolored tile to a like-new condition. Eliminates the need for costly ceiling tile replacement and does not affect acoustical properties of the tile. Seals in stains and fire or water damage. Excellent for both smooth and rough surfaces. Use to disguise unsightly gouges in acoustic tiles by color matching them to the rest of the ceiling. Will not cause the surface to warp or sag. **NEW ACOUSTA TILE** is non-flammable when dry and does not change the fire rating of the tile to which it has been applied. Does not contain chlorinated solvents or Hexane.

**Directions:** Shake vigorously before and during use. Hold can 8-10 inches from surface to be treated. Apply with a sweeping motion using several thin coats. Allow each coat to dry for at least two minutes before applying the next coat. Feather edges into remainder of the area to blend well. For large gouges and textured areas use Omega's **POPCORN PATCH** to fill in texture, then apply **NEW ACOUSTA TILE** to cover and blend color.

#### Areas of Use:

- \*Office Buildings
- \*hotels
- \*hospitals
- \*restaurants
- \*schools
- \*municipal buildings
- \*damage restoration companies
- \*and more!

Health	1
Flammability	3
Reactivity	1
