

Air Tool Rejuvenator

Cleaner and lubricant
for air tools

This remarkable product is designed to clean, lubricate, and recondition all air tools. Regular use will restore tools to peak power and RPM, plus extend the life of your expensive air tools. **AIR TOOL REJUVENATOR** will also prevent rust and corrosion by eliminating moisture and calcium buildup in air lines. Use regularly for preventive maintenance to dissolve sludge, dirt and dust accumulation and to cut downtime and costly repairs.

AIR TOOL REJUVENATOR can be used on all air-operated tools including jackhammers, drills, saws, impact wrenches, sanders, polishers, grinders, and air-operated motors.

Directions: Spray into all openings including air inlet connection. Allow product to penetrate then run air tool at maximum RPM for 30 seconds. Repeat for severe conditions. Also, use **AIR TOOL REJUVENATOR** before tools are stored for long term as a great preventive measure.

Areas of Use:

- *construction trades
- *automotive garages
- *municipalities
- *military
- *mining
- *transportation
- *maintenance workers
- *other trades utilizing any type of air powered tools.
