

Anti Seize Brush Top

Anti seize lubricant with
handy brush top applicator

This extreme temperature, extreme pressure anti seize compound protects all metal surfaces from exposure to extreme temperatures and corrosive atmospheres. **ANTI SEIZE BRUSH TOP** is highly effective in temperatures ranging from -65°F to 2100°F. Use **ANTI SEIZE BRUSH TOP** to prevent galling and seizing, plus to protect against rust and corrosion. This product will not wash off, even in areas with salt spray. **ANTI SEIZE BRUSH TOP** will not harden, separate, evaporate or fuse to metals.

Directions: Use brush applicator to apply a thin, even coat to metal surfaces. For best result, remove old lubricant with Omega's **POW** degreaser before re-coating area.

Areas of Use:

- *municipalities
- *ship yards
- *building maintenance
- *water treatment facilities
- *vehicle maintenance
- *sign shops
- *industrial machines

Health	1
