

Blue Magic

Hand sanitizing gel

This is a unique mint scented hand sanitizer with ethyl alcohol that works instantly without water. **BLUE MAGIC** leaves hands sanitized, and conditioned without an antiseptic smell, and will not dry out skin. Helps prevent bacterial transfer such as cold and flu, and reduces hospital acquired infections, and other health hazards due to unsanitary working conditions. Use **BLUE MAGIC** throughout the day and before eating lunch or going home to your family and friends to prevent spreading germs contacted at work. Ideal for those who work frequently with the public. To clean grease and grime from hands use Omega's **OLD FAITHFUL** heavy duty hand cleaner, and try Omega's **MEGAPHENE PLUS** surface disinfectant spray to sanitize tools, phones and door handles .

Directions: Apply **BLUE MAGIC** to clean, dry palms. Cover hands thoroughly and rub lightly until dry. Air dries in 15 seconds. Do not rinse.

Areas of Use:

- *maintenance workers
- *plumbers
- *cleaning crews
- *sewer departments
- *schools
- *hospitals
- *nursing homes
- *detention centers
- *hotel workers
