

Bond A Boo Boo

2 part epoxy adhesive

This easy to use solvent free epoxy adhesive can be used to bond or repair materials such as wood, metal, glass, ceramic, plastics, and rubber. **BOND A BOO BOO's** 2 component formula provides a chemical resistant bond in 5 minutes, with final cure in 2-3 hours. **BOND A BOO BOO** also provides excellent adhesion to aluminum, copper, steel, brass, concrete, wood, glass, plastics, ceramics, metals, graphite, polyurethane and more.

Directions: Surface to be bonded must be clean and dry. Use attachment to mix adhesive parts thoroughly before applying directly to the surface to be bonded. Active work life is 5 minutes. Adhesive thickness of 5 mil will provide maximum bond strength. High bond strength will develop in 2-3 hours.

Areas of Use:

- *hotels
- *hospitals
- *apartment complexes
- *cities and counties
- *office buildings
- *warehouses
- *industrial facilities

Health	2
Flammability	1
Reactivity	1
Protection	B

Appearance and odor.....	Viscous liquid, Mild Scent
Specific Gravity.....	Part A 1.17; Part B 1.30
VOC.....	0%
NFPA Fire Rating.....	Flammable
