

Brite Bath

Mold and mildew
stain remover

BRITE BATH is a highly concentrated cleaner and whitener specifically formulated to remove stains and brighten surfaces. Don't replace it or spend hours scrubbing to remove tough mold and mildew stains. **BRITE BATH** works with no wiping or scrubbing; simply spray on surface and leave set. Removes mildew, algae & mold stains from tubs, showers, tile and grout. To make your whole bath or shower look like new after brightening with **BRITE BATH**, use Omega's **SPOT AWAY** to remove hard water spots and calcium buildup from fixtures and enclosures.

Directions: Just add warm water to the already pre-set portion of chemical and shake. Lightly spray area to be whitened. Allow a few hours to work. Rinse or wipe clean. Do not mix **BRITE BATH** with other chemicals. Use with adequate ventilation.

Areas of Use:

- *apartment complexes
- *retirement facilities
- *nursing homes
- *custodial services
- *locker rooms
- *hospitals
- *hotels
- *any other public restrooms
