

Brushless Mini

PVC Cement & Primer

This professional grade fast acting primer and cement can be used on all CPVC and PVC classes and schedules. Both **BRUSHLESS MINI** products are conveniently packaged in an aerosol for ease of use and less waste. **BRUSHLESS MINI PRIMER** is a fast acting purple primer used to prepare surfaces for adhesives. Use **BRUSHLESS MINI PRIMER** before applying **BRUSHLESS MINI** cement. Both have low V.O.C. to help protect the environment. **BRUSHLESS MINI** cement has no messy brushes for application, and the medium body formula will not run off. Great for electrical conduits, drains, PVC connections, sprinkler systems, etc. **BRUSHLESS MINI** cement sprays on clear and will spray in an inverted position for ease of use. Both primer and cement have a five year shelf life.

Directions: PRIMER: Shake well. Apply to clean dry surface. Spray on using short even strokes until thoroughly coated before using cement. CEMENT: Spray on in short even strokes until thoroughly coated before firmly attaching fitting.

Areas of Use:

- *PVC & ABS connections
- *factories
- *hospitals
- *cities
- *municipalities
- *plumbers
- *electricians
- *schools
- *water districts

Primer & Cement

Health	1
