

Bugaboo

Insect repellent
with DEET

BUGABOO personal insect repellent is an aerosol spray that repels mosquitoes, ticks, fleas, gnats, house flies and many other flying insects. The handy size can is great to keep in tool boxes, glove boxes and many other convenient places so that it is available every time you need it. The active ingredients in **BUGABOO** include DEET for maximum effectiveness. The spray is non-greasy and can be applied directly to skin or clothing, will not damage cotton, wool, or nylon. Should not be used on rayon. Ideal for outdoor workers, **BUGABOO** helps to protect you and your employees from West Nile Virus, by repelling mosquitoes that spread the virus. Can will spray right side up or upside down for added convenience.

Directions: Shake well. Hold can 6-8 inches from skin or clothing and spray with a sweeping motion to moisten surface. Can be applied directly to skin. To apply to face, spray into palm and rub on. Frequent reapplication or saturation is not needed.

Areas of Use:

- *grounds care workers
- *parks & recreation crews
- *water treatment facilities
- *anyone outdoors
- *municipalities
- *maintenance crews
