

# CT Fluid

Cutting and tapping fluid

**CT FLUID** is a clear, synthetic coolant and lubricant for cutting and tapping that is designed to disperse heat, extend tool life, and increase production rates. Reducing heat at the source ensures smoother, cleaner cuts. Convenient aerosol is handy for field operations and is non-irritating to the skin. **CT FLUID** works on all steels, titanium, monel and aluminum. Transparent fluid gives a clear view of work area while providing a continuous non-staining film. Can be removed with cold water or Omega's **MEGA POWER** degreaser. Safe for use on all steels, titanium, monel and aluminum.

**Directions:** Spray area to be worked generously. Reapply as needed to keep work area cool and well lubricated.

#### Areas of Use:

- \*punching
- \*drilling
- \*tapping
- \*sawing
- \*machining
- \*cutting
- \*boring
- \*threading
- \*grinding
- \*bottling plants
- \*steel mills
- \*shipyards
- \*factories
- \*municipalities
- \*refineries

Health	1
Flammability	3
Reactivity	0
Protection	B

Appearance and odor.....	Colorless liquid, alcohol odor
Specific Gravity.....	Concentrate - 0.862
Propellant.....	Liquefied Petroleum Gas
VOC.....	70%
NFPA Fire Rating.....	Extremely Flammable Spray
