

Cannon

Non-acid, non-fuming drain
opener and maintainer

This easy to use non-acid, non-fuming drain opener requires no dangerous mixing and will not harm plastic or metal plumbing, or septic tanks. **CANNON** aids in the removal of organic obstructions like grease, cloth, hair, paper, and even fatty type stoppages. This versatile product can also be used on a regular maintenance program to prevent sludge from building up. **CANNON** is designed to be as strong as acid based drain openers without the harsh fumes or hazardous conditions that are associated with acids. **CANNON** is many times heavier than water so it will cut through and travel directly to the source of the problem. **Directions:** Pour one pint (1/2 bottle) directly into drain and allow to stand for 30 minutes. Repeat if necessary. Extremely heavy grease stoppage may require overnight contact. Large industrial drains need one quart of **CANNON**. For preventive maintenance, use 1 pint of **CANNON** weekly to prevent sludge buildup.

Areas of Use:

- *restaurants
- *hotels
- *retirement facilities
- *office buildings
- *hospitals
- *schools
- *municipalities
- *public buildings
- *malls
- *restrooms
