

D-Ice

Melts ice, frost and snow

D-Ice has a high pressure spray that quickly dissolves ice, frost and snow from windows and wind-shields, plus it thaws frozen locks and hinges. **D-ICE** helps prevent freezing when used in advance. Eliminates scraping and possible damage to glass, while reducing the need for lengthy vehicle warm ups to clear frost. **D-ICE** can also be used on steps and walkways for quick melting of dangerous icy areas. With a health rating of 1, **D-ICE** is much safer to use than most other ice melting products.

Directions: Brush off loose snow. Spray windshield starting at the top. After ice has melted, use wipers to brush away ice layer. Over application may cause smearing, wipe area with clean cloth to remove excess. Rinses clean with water.

Areas of Use:

- *maintenance crews
- *fleet operators
- *school buses
- *municipalities
- *windshields/windows
- *locks
- *freezer compartments
- *hinges

Health	1
Flammability	3
Reactivity	0
Protection	B

Appearance and odor.....	Clear liquid, mild alcohol odor
Specific Gravity.....	Concentrate - 0.797
Propellant.....	Carbon Dioxide
VOC.....	92.06%
NFPA Fire Rating.....	Extremely-Flammable Spray
