

# Glue It

High performance adhesive  
and activator

**GLUE IT** is a high performance cyanoacrylate adhesive for bonding difficult to bond surfaces. **GLUE IT** will bond porous or absorbent materials such as wood, paper, leather and fabric, as well as metals, plastic and elastomeric compounds. Functional bonding occurs in as little as 5 seconds with full cure and chemical resistance in 24 hours. **GLUE IT** is a single component adhesive that cures quickly at room temperature, is solvent free for less odor, and resists many environmental factors. A little goes a long way and provides a bond stronger than many other adhesives. **GLUE IT FAST** is designed to increase the speed of cure time for **GLUE IT** on all surfaces, and enhances the bond on difficult surfaces such as porous areas, acidic materials and rubber.

**Directions:** Clean surface before use, apply sparingly. Apply **GLUE IT** to one surface to be bonded and press peices together for 15 seconds. When using **GLUE IT FAST**, apply to other surface before bringing peices together.

**Areas of Use:**

- \*hotels
- \*hospitals
- \*apartment complexes
- \*cities and counties
- \*office buildings
- \*warehouses
- \*industrial facilities

Health	2
Flammability	2
Reactivity	1
Protection	C

Appearance and odor.....	Adhesive-Colorless liquid, Activator-amber liquid
VOC.....	N/A
NFPA Fire Rating.....	Flammable
