

Grease It White

Food Grade Grease

GREASE IT WHITE is a multi-purpose and hi-temp food grade grease designed specifically for a wide range of applications within the food industry. **GREASE IT WHITE** is formulated with aluminum complex thickener and other permissible ingredients including base oils and performance additives to meet the stringent requirements of the food industry. **GREASE IT WHITE** contains a high performance EP additive package, which increases extreme pressure and anti-wear protection. The aluminum complex thickener also provides superior resistance to water washout and is thermally stable for use in a wide range of operating temperatures. **GREASE IT WHITE** is an excellent high temperature grease and designed to work effectively up to 350°F. **GREASE IT WHITE** also features excellent water resistance. Both of these properties can be mainly attributed to the aluminum complex thickener which is very water repellent and has a high dropping (+450°F). **GREASE IT WHITE** is recommended for the baking, canning, food processing, beverage, and pharmaceutical sectors of the food grade industry. **GREASE IT WHITE** works great in the following application where incidental contact is a concern: Sleeve bearing, anti-friction bearing, slides, guides, and couplings. **GREASE IT WHITE** can be used in lumber and pulp/paper machinery where staining or contamination is a concern and is also recommended for textile machinery bearings. USDA H1, NLGI 2, Timken Load 45.

Directions:

PUMP IN GREASE UNTIL ALL OLD GREASE COMES OUT.

Areas of Use:

- *Food processing industry
- *Bottling plants
- *Wineries
- *Pharmaceutical companies
- *Water purification plants
- *Food warehouse equipment
- *Packaging assembly lines

Health	0
Flammability	1
Reactivity	0
Protection	N/A

Appearance and odor.....	Smooth, white semi-solid, slight petroleum odor.
Specific Gravity.....	Concentrate - N/A
VOC.....	N/A
NFPA Fire Rating.....	Flammable
