

Hand Helper

Hand lotion
with Mink Oil

HAND HELPER is a luxurious lotion for the care of rough, dry skin that is quite similar to your skin's own natural moisturizers. Each drop of **HAND HELPER** penetrates deeply to moisturize your skin without the "greasy feeling" associated with most moisturizers. It helps to smooth away dryness with its neutral tropical oils and emollients. Use it whenever dry, chapped or rough skin is a problem and to prevent dry skin. Helps prevent the drying of skin that is caused by working outdoors, heavy industrial work and working with paper and paper products.

Directions: Apply a small amount of **HAND HELPER** to your palm and rub thoroughly into the skin on hands, arms, and other dry areas. Use regularly to maintain soft, supple skin.

Areas of Use:

- *plumbers
- *office staff
- *teachers
- *city and county workers
- *hotel staff
- *kitchen personnel
- *maintenance employees
- *park and grounds care
