

Hi Shine

Auto buff and polish

This vehicle buff and polish shines, brightens and protects a multitude of surfaces. As you apply **HI SHINE**, special solvents clean and revitalize the surface. Released grime and oxidation are lifted free where they are easily wiped away. Micro-organic clay polishers remove oily film, prior wax build-up, soap haze, powdery residue and microscopic scratches. The combination of natural waxes and UV blockers, plus long lasting polymers in **HI SHINE** provide protection from sun damage, fading, cracking, peeling and chipping. Safely cleans and polishes painted, lacquered, gel coated, and varnished surfaces, plus stainless steel, aluminum, chrome, polished stone, wood, fiberglass, and most any other surface. Imparts a gem-like depth to shiny surfaces and provides a hard wax protective shield. Great for use on appliances, furniture, decorative metals, counters, elevators, and many other surfaces. For vehicles be sure to try Omega's **RESTORE** cleaner and protectant for trim, vinyl and leather, and **TIRE SHINE** for new looking tires and to complete your vehicle's detail and provide a perfect finish.

Directions: Spray product directly onto surface to be cleaned and polished. Using a clean dry cloth, gently rub **HI SHINE** into area in a circular motion.

Areas of Use:

- *fleet vehicles
- *detail shops
- *refrigerators & freezers
- *apartments
- *municipalities
- *buses
