

Insect Repel Bands

Insect Repellant Wrist Bands

INSECT REPEL BANDS can be worn on a wrist, or fastened to belt loops, tool belts, work area materials, etc. to effectively repel flying insects for up to 3 - 4 feet radius from band. A must have for anyone who works outside to repel disease carrying mosquitos and annoying flies such as house flies, stable flies, and horn flies. It also repels cockroaches, fire ants, fleas, gnats, dog ticks, lone star ticks and no-see-ums. Has a breakaway feature for safety and the repellent protection will not wash off with water or perspiration. When kept in its plastic container, **INSECT REPEL BANDS** can be re-used for up to 120 hours! The active ingredient, Geraniol, has been tested to be more effective than Citronella.

Directions: Fasten to wrist, tool belt, hatband or nearby equipment to effectively repel flying insects. Store in plastic container when not in use.

Areas of Use:

- *park departments
- *graffiti removal teams
- *landscapers and grounds keepers
- *cities and counties
- *street departments
- *water treatment plants
- *sewer departments
- *utility companies
