

Jelly-D

Jelled degreaser

JELLY-D is a heavy duty, industrial strength jell degreaser that quickly dissolves and removes grease, tar, brake fluid, asphalt, road oil, roofing compound, road bugs, bird droppings, etc. The jell formulation clings to vertical and horizontal surfaces to increase dwell time plus control usage and avoid excess run-off. **JELLY-D** contains a self-indicating white jell that turns the color of the soil to indicate solvent activity. Safe and effective on most surfaces including metals, painted surfaces, vinyl, formica, porcelain, marble, tile, concrete and stone. Contains no chlorinated solvents or petroleum distillates. **JELLY-D** has no harsh chemical odors and contains a citrus scent.

Directions: Shake well. Spray surface thoroughly. Allow to set for several minutes as dissolving action occurs. Wipe off or flush clean with a high-pressure stream of water. For difficult to remove deposits, scrub with a stiff brush before flushing with water. Repeat if necessary.

Areas of Use:

- *engine blocks
- *road machinery
- *maintenance equipment
- *roofing equipment
- *vehicles and busses
- *construction equipment
- *agricultural machinery
- *mining equipment
- *masonry
- *concrete driveways

Health	1
Flammability	2
Reactivity	0
Protection	B

Appearance and odor.....	White viscous liquid, Citrus Scent
Specific Gravity.....	Concentrate - 0.950
Propellant.....	Liquefied Petroleum Gas
VOC.....	40%
NFPA Fire Rating.....	Flammable Spray
