

# Killa Pine

One step disinfectant

**KILLA PINE** is a multi-purpose germicidal detergent effective in the presence of a moderate amount of organic soil. Disinfects, cleans and deodorizes in one easy, labor saving step. Great for use on walls, floors, metal and plastic surfaces, sinks, toilets, showers and other non-porous areas. Eliminates the breeding sources of bacteria and viruses on hard surfaces. Will effectively control the growth of mold and mildew plus the odors associated with them. Kills germs that cause flu, pneumonia, staph infections, cold sores, food poisoning, and eye and skin infections. Also effective against Influenza A/Texas, Herpes Simplex Virus Type 1, and HIV-1 (AIDS virus).

**Directions:** Dilute before use. Dilution rate is 1 ounce per gallon of water. **TO CLEAN AND DISINFECT:** Remove heavy soil deposits from surface. Thoroughly wet surface with a solution of 1 ounce of **KILLA PINE** to 1 gallon of water. Use cloth, mop, sponge or sprayer to apply. Allow to remain on surface for 10 minutes then rinse or allow to air dry. Rinsing of floors is not required. When using to clean and disinfect toilet bowls, empty the bowl and swab with solution then let stand for 10 minutes or overnight before flushing. **MILDEWSTAT:** To control mold and help prevent re-growth on non-porous surfaces, spray surface to be treated and allow to dry. Repeat application weekly or as needed to prevent new growth. For special instructions to decontaminate areas soiled with bodily fluids against HIV virus, see side panel of container.

**Areas of Use:**

- \*hospitals
- \*institutions
- \*schools
- \*retirement facilities
- \*elder care facilities
- \*locker rooms
- \*restrooms
- \*meat and poultry plants
- \*hotels
- \*apartments

Health	2
Flammability	0
Reactivity	0
Protection	B

Appearance and odor.....	Clear greenish liquid, Pine Scent
Specific Gravity.....	Concentrate - 1.00
VOC.....	81% (concentrate only)
NFPA Fire Rating.....	Non-flammable
