

Mark It

Inverted tip
marking paint

This municipal and utility inverted tip marking paint has an environmentally friendly, water based formula that is V.O.C. compliant. **MARK IT** is great in to cover any old striping that is no longer needed. Contains higher solids content so it lasts longer between re-coating, saving you time and money in labor, while freeing time to do other things. **Available in all OSHA colors Black, Blue, Fluorescent Orange, Green, Yellow, Red, and White.**

Directions: Clean area to be marked with Omega's **MEGA POWER** or **MEGA CITRA FOAM** degreaser to make sure area is free of oil and grease residue. Shake well. Invert can, point toward surface to be marked, and press spray button to the side to actuate. Hold can 4-6 inches from surface and spray with steady even strokes.
