

Mega-Bac Plus

Enzyme & Bacteria Cultures

The enzyme and bacteria cultures in **MEGA-BAC PLUS** are nature's way of dissolving organic waste and the odors that are associated with the breakdown of waste. These anaerobic and aerobic bacteria have been cultured specifically for their ability to digest waste quickly and effectively thus speeding up the normal "break-down" process. These special multi-cultured strains of natural bacteria are combined with the waste digesting properties of salmonella free natural enzymes that are non-pathogenic and non-polluting to make **MEGA-BAC PLUS** one of the fastest working "bugs" in the industry. They quickly and effectively break down animal and vegetable fats as well as proteins and carbohydrates. **MEGA-BAC PLUS** can be used in grease traps, drain lines, septic tanks, holding tanks, and garbage areas to prevent build-up and control offensive odors. **MEGA-BAC PLUS** can also be used as a deodorizer as it is powerful enough to remove urine odors and those caused by mildew, plus much more.

Areas of Use:

- *municipalities
- *apartment complexes
- *hospitals
- *public buildings
- *restrooms
- *school districts
- *industrial kitchens
- *retirement facilities

Directions: DRAIN LINES: Pour 3-4 ounces down each drain. For best results use at the end of the day to allow the bacteria to work. GREASE TRAPS: Pour 4-5 ounces directly into trap. Use daily. SEPTIC TANKS: Use 1 pint of **MEGA-BAC PLUS** per 25 cubic feet of capacity. Thereafter use 8 ounces weekly. HOLDING TANKS: Add 2 ounces of product per gallon of water in holding tank. Thereafter use 1 ounce per 50 gallons of capacity.

Health	1
Flammability	0
Reactivity	0
Protection	N/A

Appearance and odor.....	Off white, milky liquid with floral odor.
Specific Gravity.....	Concentrate - 1.0
% Volatile by Volume.....	<90%
NFPA Fire Rating.....	Non-Flammable
