

Mega Safe

**New Formula
Safety Solvent**

26,800 Volt Dielectric Strength

MEGA SAFE is a super fast drying, residue free, powerful flushing action safety solvent that dissolves grease and rinses away dirt and grime without injury to working parts. **MEGA SAFE** contains no chlorinated solvents, CFC's or HCFC's. Features a 26,800-volt dielectric strength combined with non-flammability makes this degreaser safe for use on motors, generators, relays, and control panels even while equipment is in operation. It is safe on most plastics. For application where re-lubrication is needed try one of Omega's full line of greases and spray lubricants. Non-flammability makes **MEGA SAFE** easier to store and safer for employees to use.

Directions: Saturate parts to be cleaned. Wipe or allow to air dry. For heavily encrusted areas, use brush before second application. Parts can also be submerged in **MEGA SAFE** and soaked for 3-5 minutes.

Areas of Use:

- *automotive parts
- *diesel engines
- *marine equipment
- *aircraft parts
- *industrial equipment
- *refrigeration equipment
- *generators
- *motors
- *power tools
- *food processing equipment
- *lawn equipment motors
- *gas, water and electric meters
- *printing equipment

Health	2
Flammability	0
Reactivity	0
Protection	B

Appearance and odor.....	Clear colorless liquid, strong odor
Specific Gravity.....	Concentrate - 1.33
Propellant.....	Carbon Dioxide
VOC.....	96%
NFPA Fire Rating.....	Non-Flammable Spray
