

Megaphene B

Total Release
Disinfectant Bomb

This total release bomb is used as an entire room disinfectant and antimicrobial agent. This product is one of the most unique disinfectant and deodorizing products available. **MEGAPHENE B** is classified as germicidal, fungicidal, staphylocidal, virucidal, tuberculocidal and pseudomonocidal. Kills HIV-1 (AIDS virus), Herpes Simplex Virus I and II, influenza A2/Hong Kong, infectious canine hepatitis, canine distemper, and feline pneumonitis, and more on hard surfaces. In addition, it completely inhibits mold and mildew growth on cloth surfaces. **MEGAPHENE B** both disinfects and deodorizes surfaces through effective bactericidal and fungicidal activity with a pleasant fragrance. Sanitizes hard surfaces and more including cloth, leather, and fabric that may be found in ambulances, gyms, locker rooms, medical offices, and veterinary clinics.

Directions: Shake well. Clean soil deposits from area to be treated with one of Omega's industrial strength cleaning products such as **PINK CADILLAC** or **MEGA CITRA FOAM**. Lock valve in open position by depressing all the way down so the catch locks. Place in center of room on stand or table. Leave area at once and keep closed for at least two hours before airing out. Use one unit for each 6,000 cubic feet of space to be treated. Do not use entire contents in an area less than 100 cubic feet. Ventilate thoroughly before re-entry.
