

MIST

Metered Deodorizer Spray

The breakthrough formula in **MIST** contains all of the performance one might expect from an air freshener -- but with a twist. This incredibly dry spray has excellent bloom and suspension time, ultra fine particles, no fall out, and no residues, all without using ozone depleters. **MIST** contains two odor counteractants for maximum deodorizing power. The dual system quickly neutralizes malodors with industrial and institutional strength even on smoke, decay, solvent, vomit, cooking, pet odors, and more. Also featured is a new, universal, non-proprietary actuator for use in most available time dispense machines. The metered valve delivers precise spray volumes in an ultra fine mist to effectively and continuously freshen rooms up to 6,000 cubic feet without even thinking about it. For really tough odors, use Omega's **ELIMINATOR** total release fogger, then keep the area fresh with **MIST** for a great first impression every time.

Available in Citrus, Linen Fresh, Mango, Very Berry, and Waterfall.

Directions: Place can into meter cabinet, with the valve pointing towards you. Turn the unit away from face before switching on.

Areas of Use:

- *apartment model units
- *offices
- *restrooms
- *trash chutes
- *laundry rooms
- *indoor hallways
- *schools
- *municipalities
