

No Sweat

Prevents condensation and sweating of cold surfaces

NO SWEAT is a white aerosol insulating sealant that prevents condensation and sweating on cold water pipes, condensers, valves and pipe fittings; stopping damage caused by dripping water. Dries quickly to a clean white insulation and provides an excellent repair for wrap-around type insulation. Convenient aerosol spray can allows for application in hard to reach areas and **NO SWEAT** easily conforms to irregular surfaces. Also excellent for use in conjunction with wrap around sleeve or foam type insulation. Adheres to stainless steel, black iron, copper, brass, galvanized and PVC. When pipes above dropped ceilings have caused stains on acoustical ceiling tiles, use Omega's **NEW ACOUSTA TILE** to seal in and remove stains from the ceiling tile, after treating sweating pipes with **NO SWEAT** to avoid re-staining. **NO SWEAT** is non-flammable and paintable when dry.

Directions: Shake before and during use. For best results use several thin coats, allowing each coat to dry between applications.

Areas of Use:

- *cold water pipes
- *cold air ducts
- *water tanks
- *refrigeration lines
- *condenser lines
- *industrial applications
- *hospitals
- *food plants
- *refrigerated trucks
- *indoor ice rinks
- *chemical plants
- *cold storage lockers
- *ships

Health	2
Flammability	2
Reactivity	1
Protection	B

Appearance and odor.....	Viscous white liquid, Solvent odor
Specific Gravity.....	Concentrate - 1.358
Propellant.....	Liquefied Petroleum Gas
VOC.....	74%
NFPA Fire Rating.....	Extremely-flammable Spray
