

Oxy-Foam

Foaming cleaner and polish
for all hard surfaces

OXY FOAM is used to remove dullness, tarnish, oxidation, scratches and scuff marks. The treated surface will be left polished and with a lasting protective coating. Can be used on brass, stainless steel, aluminum, chrome, painted surfaces, glass, Plexiglas, non-optical plastics, mirrors, fiberglass, and any similar type surfaces that need to be cleaned and polished. **OXY FOAM** contains a "jewelers rough" that provides unparalleled shine to most any surface. Use in restrooms for counter tops and stainless steel to shine and protect. **OXY FOAM** is great for cleaning and restoring municipal light bars that have become dirty, clouded or oxidized, providing like new shine and clarity. Leaves a tough durable protective film on surface.

Directions: Shake well. Spray foam onto a clean cloth, and work into surface until dry to remove oxidation. Buff to a shine with a clean dry cloth. On very dull surfaces repeat until clean.

Areas of Use:

- *hotels
- *retirement facilities
- *kitchens
- *restrooms
- *municipal vehicle light bars
- *headlights
- *auto shops
- *building maintenance
- *equipment
