

# Paver's Friend

Water Soluble  
Asphalt Release Agent

**PAVER'S FRIEND** is a unique blend of methyl esthers and surfactants developed exclusively for Omega in order to meet the special needs of the asphalt paving industry. It is designed to replace diesel fuel for cleaning and asphalt release. You get all the benefits of diesel without the negative environmental impact. This water soluble formula is great for use in every aspect of the paving job. **PAVER'S FRIEND** is water rinseable, biodegradable, has very low VOC's, and is non-toxic. Use on truck beds, aprons, wands, emulsion tanks, hoppers, chains, conveyors, rollers, tires and in tool dip buckets. **PAVER'S FRIEND** can be used before any paving job as a release agent and after as a cleaner. When used before, surfaces will rinse clean with water. To clean hands tool handles, vinyl vehicle seats and door handles, and any other surface that has come into contact with grease, oil, tar, or asphalt during and after paving and potholing jobs, use Omega's **MUSCLEMAN** hand towels available for convenient one step cleaning.

**Directions:** Dilute with water and spray diluted solution onto all surfaces that may be susceptible to buildup of asphalt. Rinse with water spray for easy cleanup or use **PAVER'S FRIEND** to clean areas not pre-treated.

#### Areas of Use:

- \*construction
- \*grounds maintenance
- \*streets departments
- \*road repair equipment
- \*slurry seal companies
- \*cities & counties
- \*school districts
- \*industrial applications
- \*airports

Health	1
Flammability	1
Reactivity	0
Protection	N/A

Appearance and odor.....	Yellow liquid, Mild odor
Specific Gravity.....	Concentrate - 0.88
VOC.....	Negligible
NFPA Fire Rating.....	Flammable
