

# Pipe Bond

Pipe repair kit

**PIPE-BOND** is a unique, easy to use, quick action repair wrap that when used properly will repair broken pipes damaged through everyday wear, and is ideal to have around for an emergency that may occur when you least expect it. **PIPE-BOND's** high strength adhesive combined with its ability to set under water provides quick repair to pipes, engine hoses, fences, tool handles, hulls, ladders and more, even in extreme conditions. **PIPE-BOND** also makes an ideal application in the splash zone for corrosion protection, reinforcement, piling protection, and electrical insulation up to 16,000 volts. **Available in three different kits: Pressure On; Pressure Off; and Emergency Repair.**

**Directions:** Release water pressure (when applicable). Clean and roughen area to be repaired. Soak **PIPE-BOND** wrap in temperate water for 20 seconds then wrap area to be repaired. Squeeze and mold **PIPE-BOND** in the direction of the wrap while removing excess water and spreading resin. Allow 30 minutes for complete cure.
