

Primal Primer

Primer Coating

Primal Primer coating for use on bare metal and bare wood surfaces. Provides massive rust protection. Fast drying sag free spray helps prevent rust and all chemical corrosion. Comes in Light Gray and Red

Directions: Surface must be clean and dry before painting. For better adhesion, sand lightly with fine sandpaper or steel wool. Shake can at least until rattle is heard and occasionally during use. Then spray surface.

Areas of Use:

- *any bare metal
- *bare wood surfaces
- *generators
- *maintenance equipment

Health	1
Flammability	3
Reactivity	3
Protection	G

Appearance and odor.....	Color coating with solvent odor
Specific Gravity.....	Concentrate - 0.77 - 0.90
VOC by weight.....	52.7
NFPA Fire Rating.....	Extremely Flammable
