

Q & E Patch

Instant concrete patch

Q&E is a latex type concrete floor patch. It contains silicones & liquid vinyl for a sturdy and water-resistant finish. **Q&E** is a self-bonding and permanent patch that is ideal for smoothing rough concrete, masonry, brick and stone. It is called **Q&E** because it is quick and easy! Easily applied with a trowel, **Q&E** quickly transforms unsightly cracked and pitted finishes to a smooth, safer, waterproofed surface.

Directions: Apply to areas with a trowel and smooth over. If after drying, patch is a little rough, apply a second thin coat or sand when hard. Full cure in 4-6 hours. Material has a natural color at final set.

Areas of Use:

- *cities and counties
- *school districts
- *warehouses
- *wineries
- *building maintenance
- *state facilities
- *park maintenance
- *grounds departments
