

# Red-I-Grease

High temp  
red spray grease

**RED-I-GREASE** is a multi-purpose lubricant that sprays out of the can as a thin, penetrating liquid and quickly becomes a thick red grease capable of clinging to vertical surfaces. This convenient liquefied lithium based grease sprays as a liquid to flush off old contaminated lubricant in order to ensure maximum effectiveness of new grease. The additive package provides superior adhesive, cohesive, extreme pressure and cushioning properties which help to extend the life of your equipment. **RED-I-GREASE** lubricates, prevents oxidation, and prevents rust without the dangers of ozone depleting chlorinated solvents. Resists throw off and withstands heat to 500 degrees. Contains no chlorinated or fluorinated solvents.

**Directions:** Spray thin film on surface to be covered. Use extension tube for hard to reach places. **RED-I-GREASE** begins to thicken immediately and is fully cured in 15-20 minutes.

**Areas of Use:**

- \*food processing equipment
- \*marinas
- \*packing and shipping operations
- \*gears
- \*valves
- \*pumps
- \*linkages
- \*rollers
- \*bearings

Health	1
Flammability	3
Reactivity	0
Protection	B

Appearance and odor.....	Red viscous liquid, solvent odor
Specific Gravity.....	Concentrate - 0.744
Propellant.....	Carbon Dioxide
VOC.....	47.92%
NFPA Fire Rating.....	Extremely-Flammable Spray
