

Screen Clean

Touch screen safe
screen cleaner

SCREEN CLEAN is designed to clean, polish and protect all computer screens, and surrounding surfaces such as glass, plastic, chrome, porcelain and painted surfaces. It is even safe to use on touch screen technology! The non-static, non-abrasive formula removes and repels dust, finger prints, oil and other marks on CRT screens. A clean CRT screen reduces eye strain and provides for more accurate reading, so use **SCREEN CLEAN** regularly to protect your eyesight and ensure easier reading from all CRT and touch screens. Works well on scanner and copier glass as well.

Directions: Shake well. Hold container 6-12 inches from surface to be cleaned. Spray sparingly then wipe clean. Polish immediately with dry cloth or paper towel.

Areas of Use:

- *offices
- *schools
- *cities & counties
- *building maintenance
- *airports
- *casinos
- *touch screens
