

Shield

skin shield for protecting
hands and body
from paints, chemicals,
and fiberglass

SHIELD contains a one of a kind formula which protects skin from solvents, paints, resins, chemicals, fiberglass fibers, dye and other forms of dirt and grime. Also provides protection from harsh chemicals such as acids, alkalis, inks and epoxies. **SHIELD** moisturizes as it protects skin with Aloe Vera and Lanolin. Helps avoid skin problems such as itching, blisters and chemical burns associated to contact with various irritants including various products that can dry out the skin. Allows skin to flex and breathe while being protected, increasing manual dexterity and allowing touch and feeling sensitivity not attainable with gloves. **SHIELD** can be used under gloves to help protect against latex sensitivity. USDA Authorized.

Directions: Apply foam generously to clean hands, and rub hands together. To remove, wash with soap and water.
