

# Slippery Pull A

Wire Pulling Lubricant

**SLIPPERY PULL A** is a non-conductive, clear wire pulling lubricant for easy installation and removal of any type of wiring. Use for ease in pulling plastic, rubber or synthetic covered wire through plastic, aluminum or steel conduit. Protects conduit against internal corrosion. Will not harm conduit or wire and will not run out conduit ends. Many wire pulling lubricants can be more trouble than they are worth because they can get sticky and messy, often staining clothes and carpeting. **SLIPPERY PULL A** is easy to clean up and wipes away from clothes and carpeting effortlessly. For complete cleanup use a light degreaser such as Omega's **MEGA POWER A**.

**Directions:** Shake well. Fasten plastic tube to spray nozzle. Insert extender tube into conduit and apply lubricant.

**Areas of Use:**

- \*municipalities
- \*utility companies
- \*electrical departments
- \*telecommunication industries
- \*computer installations

Health	0
Flammability	0
Reactivity	0
Protection	A
