

Tarn Off

Brass and metal
polishing wipes

TARN OFF waterless cleaning towels are specialized for cleaning brass but they are also great for any other hard surfaces including other metals, wood or plastic. With most products, polishing brass and metals can be a very messy task. These conveniently packaged cleaning wipes remove dullness, rust, oxidation, and carbon with no mess. Each **TARN OFF** towel contains a unique blend of natural citrus cleaners, plant extracts, jojoba oil, vitamin E, Aloe Vera, wheat germ extracts, and plant based surfactants that aggressively clean surfaces, yet are mild on the hands. **TARN OFF** towels contain no harsh chemicals, no petroleum based solvents, and no perfumes.

Directions: Just wipe on brass or other surface until clean. Dispose of towel properly. Close lid tightly when not in use.
