

US & O

Uratic Salt & Odor Remover

US & O is a white emulsion uratic salt remover for those hard to remove calcium deposits in urinal drains, and odors that arise from uratic salts accumulating in the drain lines. When used on a regular preventive maintenance schedule **US & O** can help cut down on the costly and time consuming task of removing urinals from the wall for clearing and deodorizing. This product can also be used to easily remove unsightly water rings and mineral deposits from toilet bowls. For daily maintenance cleaning of toilets and urinals use Omega's **PINK CADILLAC** or **SPEEDY CLEAN** bathroom cleaner. **US & O** has a fresh, clean scent.

Directions: For the first two months, use 4 oz. in each drain three times per week. Then reduce to 2 oz. in each drain three times per week.
